

COLUMBIA RIVER DRIVER EDUCATION

Completion of Guided Practice

I certify that my child, _____, has completed 5 hours of guided practice driving during the time that they have been enrolled in the driver education program with Columbia River Driver Education. I understand that guided practice is driving specifically focused on the areas identified on the drive comments form my child received from the drive instructor following drives 1 through 5 .

Example:

Drive comment form said: work on precision turns.

Parent/Student Action: Drove for 20 minutes and practiced starting turns on time, starting recovery when transition peg aligns with target, finished turn on target, checked rear zone and speed.

Result: Counts as guided practice and counts toward 50 hours of drive time.

Alternative Parent /Student Action: Drove for 20 minutes but didn't work on any specific skill.

Result: Counts toward 50 hours of drive time but *does not* count toward 5 hours of guided practice.
